Subject Index—Volume 1 Numbers 1-6

A

AACN 1982 National Teaching Institute, 125
Administration
  Emotional Care in the ICU: St. Luke's Hospital, Milwaukee, 166
    philosophy of the MRICU, St. Luke's Hospital, Milwaukee, WI, 167
  unit design, 36
  using an OR activity log, 301
Alprostadil (prostaglandin E_1), for neonatal heart defects, 275
Antidotes, emergency, 206
Alveolar ventilation physiology, applied, 80
Auscultation, cardiac, 152
  scales for determining loudness of murmurs, 160

B

Beds, increased number of, through surgical observation subunit, 174
Book reviews
  Behavior Therapy in Terminal Care: A Humanistic Approach, H. J Sobel
  Cardiovascular Assessment: Guide for Nurses and Other Health Professionals, D.A. Thompson
  Ethics and Law in Nursing, K.M. Fenner
  Ethics in Nursing, J.B. Thompson, H.O. Thompson
  Geriatric Medicine for the Primary Care Practitioner, E.B. Elkowitz
  Standards for Critical Care, B.C. Johanson, C.U. Dungca, D. Hoffmeister, S.J. Wells
  Surgical Technology: Principles and Practice, J.R. Fuller
  The Nurse's Quest for a Professional Identity, H.A. Cohen
  The Psychological Aspects of Intensive Care Nursing, N.M. Simon
Brain death, 178
  brain-stem tests in, 182
  possible clinical criteria for, 183
Brain-stem tests, in brain death, 182
Burnout, strategies for prevention of, 97

C

Calan (verapamil hydrochloride), 134
Calcium channel, physiology of, 136. *See also* Verapamil
Calendar of events, 353
Cardiac auscultation, 152
  scales for determining loudness of murmurs, 160
Child(ren) in the ICU
  parental interview form, 149
  preschooler, developmental considerations, 146
  school age, developmental considerations, 147
  sensory disturbances in, 145
Congenital defects, heart, use of prostaglandin E_1 in, 275
Coping, seven stages of, 110
Cost-benefit analysis, 88
Crash-cart exchange system (technical tip), 121
  pharmacy information sheet, 122
Critical Care Nurse Speaks Out, 431
Critical care programs
  creation and evaluation of, 185
  in small-town hospitals, 212
Cyanide poisoning, in children, sodium nitrite/thiosulfate in, 210

D

DCCN Review Criteria, 377
DCCN Special Recognition Award, 133
DDS (dialysis disequilibrium syndrome), 17, 63
Dependency, in the critically ill, 350
Design, of critical care unit, 36
Dialysis disequilibrium syndrome (DDS), 17, 63
  clinical signs and symptoms associated with, progression of, 19
  pathophysiology of, 18
  symptoms associated with dialysis, differentiating, 20
Documentation, problem-oriented records, as, 232
Dopamine administration, 329
Drug information. *See* Pharmacology; specific drugs

E

ECMA (extracorporeal membrane oxygenator support), 70
Editorials
  Critical Care Nursing: Responsibilities Beyond the Unit, 197
  The DCCN Special Recognitions Award, 133
  The Three Dimensions of Your Critical Care Practice, 69
  Violent Crime and Critical Care Nursing, 325
  Welcome to DCCN, 6
Education. *See* Patient education
Emotional care in the ICU: St. Luke's Hospital, Milwaukee, 166
Ethical issues, resolution of, 22
Extracorporeal membrane oxygenator support, of infant, 70
  complications of, 77
  postcannulation care, 75
  precannulation care, 74

F

Family support, for families of open-heart surgery patients, 108

G

Graduates, new, use of in critical care, 44

H

Heart, auscultation, 152
  scales for determining loudness of murmurs, 160
Heart defects, neonatal, prostaglandin E_1 treatment for, 275
Hemodynamics, advanced
  algorithm for, 143
  assessment of, 139
  glossary of terms, 142
Herpetic Whitlow, 172
  vs. bacterial paronychia, 172
Hypovolemic shock, clinical signs of, 13

I

Infant, newborn
  development of neurological function, 222
  developmental needs, in ICU, 221
    nursing care plan, 226
  heart defects in, prostaglandin E_1 and, 275
  pharmacology, microdrop calculation, 338
  respiratory paralysis for severe respiratory distress, 340
Infant, premature
  developmental care of, 221
    nursing care plan for, 226
Infections, viral, herpetic Whitlow, 172
Informed consent, 304
Inservice education. *See* Patient education
Isoptin (verapamil hydrochloride), 134

J

Joint practice teams, 360

L

Leadership, developing potential for in critical care nurses, 103
Legal issues, brain death as, 178

J

Joint practice teams, 360

L

Leadership, developing potential for in critical care nurses, 103
Legal issues, brain death as, 178

Letters to editor, 62, 190, 314
Lymphocyte depletion, thoracic duct drainage and, 291. *See also* Thoracic duct drainage

M

Management
  developing a joint practice team, 360
  staff involvement in quality assurance, 298
  using an OR activity log, 301
Marketing techniques, in creation and evaluation of critical care programs, 185
Metocurine, administration to infants, nursing protocol, 342
Metocurine iodide (Metubine Iodide), 340
Micrograms/kilograms/minute
  conversion to microdrops, 326
    chart vs. formula method, 326
    "factor of 15" method, 334
    "key number" conversion method, 332
    for neonates, 338
Mitral valve prolapse, 260
  echocardiogram in, 264
Myocardial infarction
  minimizing size of, 215
  minimizing stress-of-transfer following, 364
  pretransfer teaching plan following, 371
  sources of stress following, 369

N

Neonate. *See* Infant, newborn
New products, 62
Night shift, scheduling educational programs for nurses working, 50
Nurse(s)
  developing leadership potential of, 103
  registry, use in critical care, 88
  rotational scheduling of, 241
Nursing care plan
  developmental, for premature infant, 226
  for the thoracic duct drainage patient, 287
  in metocurine administration to an infant, 342
Nursing interviews, patients' cardiac responses to, 198

O

Operating room, activity log, 301
Oxygenation, of infants, by extracorporeal membrane oxygenator, 70

P

Paradoxical pulse, assessment of, 266
Patient education
  minimizing stress-of-transfer responses, 364
  for ventilator care at home, 244
Patient stress
  forced dependency in the critically ill, 350
  minimizing stress-of-transfer responses, 364
  patients' cardiac responses to nursing interviews in a CCU, 198
Personal advancement, tax changes and, 53
PGE_1 (prostaglandin E_1), in neonatal heart defects, 275
Pharmacology
  administering emergency antidotes to the acutely poisoned patient, 206
  converting micrograms/kilograms/minute to microdrops, 326
  prostaglandin E_1 treatment for neonatal heart defects, 275
  Verapamil: A calcium-channel blocker, 134
Pneumatic anti-shock suits, 9
  applying and inflating of, 12
  deflating of, 13
  hypovolemic shock, clinical signs of, 13
  indications for, 11
Poisoning, acute, administering emergency antidotes for, 206
Premature infant. *See* Infant, premature
Problem-oriented records, 232
  problem list, typical problems on, 235
  sample initial plan, 235
  sample S-O-A-P note, 236
Product news, 128
Prostaglandin E_1, in neonatal heart defects, 275
Pulmonary artery, pressures and position changes in the critically ill adult, 28
  research abstract, 30
Pulsus paradoxus, assessment of, 266

Q

Quality assurance, staff involvement in, 298

R

Rape crisis team, consultation with, 354
Record keeping, problem-oriented, 232
Recruitment, rotational scheduling in the ICU, 241
Registry nurses, use in critical care, 88
Relaxation, procedures for, 100
Renal transplantation, thoracic duct drainage in, 284
Research
  informed consent, and, 304
  minimizing stress-of-transfer responses, 364
  patients' cardiac responses to nursing interviews in a CCU, 198
  pulmonary artery pressure and position changes in the critically ill adult, 28
  use of registry nurses in critical care, 88
Respiratory paralysis, in neonates, for treatment of respiratory distress, 340
Rotational scheduling, 241

S

Scheduling
  of educational programs for the night shift, 50
  rotational, 241
  twelve ways to save time in critical care, 294
Sexual-assault victims, treatment for, 354
Shock, hypovolemic, clinical signs of, 13
S-O-A-P notes, 236
Sodium nitrite/thiosulfate, use in cyanide poisoning in children, 210
Sodium nitroprusside administration, 330
Staff development
  capturing the leadership potential, 103
  developing a stress-management program, 307
  scheduling educational programs for the night shift, 50
Staff efficiency, 294
Stress-of-transfer, minimizing, 364
Stress management
  for critical care staff, 307
  for the critically ill, 350
Support groups, for families of open-heart surgery patients, 108
Surgical observation subunits, for increasing critical care capabilities, 174
  classes of patients to be cared for, 175
Swan-Ganz catheter, advanced hemodynamic assessment with, 139
  glossary of terms, 142

T

Tax changes of interest, 53
Technical tip(s)
  A crash-cart exchange system, 121
  Administrative strategies for reducing stress in critical care areas, 381
  How to domesticate a pet peeve, 177
  Keeping your float on the surface, 313
  Seven steps to resolving conflict, 59
  Telling your cancer patient what he needs to know, 35

Thoracic duct drainage, 284
complications, assessment of, 288
lymphocyte depletion and, 291
nursing care plan, 287
physiology of, 290
tube scrubbing, 289
Time-saving techniques, 294

U

Unit design, 36

V

Ventilation, alveolar, application of physiological concepts of, 80
Ventilator home care, 244
case history, 252
Verapamil (verapamil hydrochloride), 134
administration guidelines, 135
physiology of calcium (slow) channel, 136
Viral infection, herpetic Whitlow, 172

W

Writer's block, ways to avoid, 117
Writing for DCCN
developing an article using the nursing model, 57
review process, 375
